

הכנס השנתי ה- 28 של האיגוד הישראלי לפסיכיאטריה ביולוגית

28th Annual Conference of The Israel Society of Biological Psychiatry

רביעי - חמישי | 19-20.3.2025
מלון רמת רחל, ירושלים

ISBP
Israel Society of Biological Psychiatry
האיגוד הישראלי לפסיכיאטריה ביולוגית

Wednesday 19.3.2025

08:30-09:30	Registration and Reception Exhibition Area			
09:30-09:45	Welcome & Opening Remarks Prof. Amir Krivoy, ISBP Chair Dr. Marina Kupchik, IPA Chair Dr. Gilad Bodenheimer, Head of Mental Services at the Ministry of Health			
09:45-10:45	Guest Speaker, Plenary Hall (אולם מסיק) A Neuroimmunological Perspective on the Mind-Body Connection Prof. Asya Rolls, Tel Aviv University			
	Parallel Sessions			
	אולם מסיק Session 1	אולם ראשונים Session 2	אולם תמר Session 3	אולם דנובוב Session 4
	Epigenetics and Transcriptomics in Neuropsychiatric Disorders Moderators: Elad Lax, Ariel University. Asaf Marco, The Hebrew University of Jerusalem	Biological Pathways of Vulnerability in Neuropsychiatric Disorders Moderator: Boaz Barak, Tel Aviv University	From FDA Rejection to Research Refinement: Advancing MDMA-Assisted Therapy for PTSD Moderator: Amiaz Revital, Sheba Medical Center	Comprehensive Approaches to Tic Disorders: Psychopharmacology, Comorbidities and Parental Aspects Moderators: Benaroya-Milshtein Noa, Schneider Children's Medical Center of Israel, Tel Aviv University Apter Alan, Schneider Children's Medical Center of Israel
10:45-12:15	Neuronal ensembles in the nucleus accumbens control alcohol relapse behavior Barak, Segev, Tel Aviv University Beyond Synapses: Leveraging Serotonin and QR2's Epigenetic Role as a Therapeutic Target for Stress and Anxiety Relief Asaf Marco, The Hebrew University of Jerusalem Epigenetic Signatures of Adolescent Depression: Unraveling the Role of Parental Emotional Warmth Elad Lax, Ariel University Characterization of Neurensin-2 knockout mice: insights into stress-resilience mechanisms Hadas Catane-Hovav, The Hebrew University of Jerusalem	A Follow-up Study Indicates Inflammatory Factors as Predictors to Cognitive Decline and Psychosis in Individuals With 22q11.2 Deletion Syndrome Taler, Michal, Tel Aviv University and Sheba Medical Center Female and male brains react differently to mental insults across ages Soreq, Hermona, The Hebrew University of Jerusalem Identification of novel genes and pathways essential for neural development Shifman, Sagiv, The Hebrew University of Jerusalem Brain Barrier Pathology in Neuropsychiatric Lupus Ben-Zvi, Ayal, The Hebrew University of Jerusalem	Comparison of treatment outcomes of Somatic Experiential Acceptance Intensive Trauma-based therapy, (SEA-IT) to MDMA Assisted Therapy. In patients with Post-Traumatic Stress Disorder Zivan Dalia - Herzog Medical Center Long-term safety and persistence of effectiveness of midomafetamine (MDMA)-assisted therapy for the treatment of post-traumatic stress disorder (PTSD): Results from the MPLONG study Amiaz Revital, Sheba Medical Center, Tel-Aviv University The Inner Directed Approach: A Novel Therapeutic Framework in MDMA-Assisted Psychotherapy Research of Lykos Therapeutics Tzarfaty Keren , MAPS Israel, Haifa University Group Therapy Utilizing MDMA in the Treatment of Veterans with PTSD and Moral Injury Sidi, Ronen, Emek Medical Center	The Art of Psychopharmacological Treatment in Tourette Syndrome Weizman Avi, Tel Aviv University Antipsychotics treatment and severity of psychopathology in children with chronic tic disorders. An EMTICS study Peled Orit, Schneider Children's Medical Center of Israel, Ariel University, Shoham Daphna, Schneider Children's Medical Center The effect of parental psychopathology on tic and comorbid psychopathology: An EMTICS study Shem-Tov Sharon, Schneider Children's Medical Center of Israel Tics Online Open Ended Training Group "Parents Living Well with Tics" Benaroya-Milshtein Noa, Schneider Children's Medical Center, Tel Aviv University
12:15-13:00	Guest Speaker, Plenary Hall (אולם מסיק) Treating Schizophrenia without postsynaptic dopamine receptor blockade: The promise of muscarinic agonism Prof. Christoph U. Correll, The Zucker School of Medicine, New York, and Charité University Medicine, Berlin			
13:00-14:00	Lunch Hotel Restaurant			

 Bristol Myers Squibb

Parallel Sessions			
אולם מסיק	אולם ראשונים	אולם תמר	אולם דובדבן
Session 5	Session 6	Session 7	Session 8
<p>Ageing and mental health: emerging neuroscience markers for diagnosis and intervention Moderator: Wolpe Noham, Tel Aviv University</p>	<p>New Directions in the Treatment of Obsessive-Compulsive Disorder Moderator: Lerer Bernard, Hadassah Medical Center, Hebrew University</p>	<p>Studying Despair and Suicidal Behavior in Human and Animal Models Moderators: Zalsman Gil, Geha MHC, Tel Aviv University Aron Weller Bar Ilan University</p>	<p>Out of the box Moderators: Ravid Doron, The Open University Alon Shamir, Technion, Mazor Mental Health Center</p>
<p>14:00-15:30</p> <p>Correspondence of Large-Scale Functional Brain Network Decline Across Aging Mice and Humans Bergmann Eyal, Rambam Health, Care Campus, Technion, Columbia University, New York</p> <p>Age-related positivity bias as a potential marker for cognitive decline and neurodegeneration Wolpe, Noham, Tel Aviv University, University of Cambridge, UK</p> <p>Age-Related Interplay Between Cognition and Depression: A Transdiagnostic Approach Harlev Daniel, Tel Aviv University, Rambam Health Care Campus</p> <p>Objective Quantification of Apathy Using Virtual Reality: Gaze Metrics and Autonomic Nervous System Responses Zorani</p>	<p>The 3S of Pharmacological Treatment for OCD (SRIs, Super-doses, Safety) – 2025 Update Zohar, Joseph, Sheba MC</p> <p>Targeted Intervention Ben-Arush, Oded, Israeli Center for the Treatment of Obsessive-Compulsive Related Disorders</p> <p>Psychedelics for the Treatment of OCD: Preclinical and Clinical Evidence Lerer, Bernard Hadassah Medical Center, Hebrew University</p> <p>Clinical and Neurobiological Outcomes of Deep Transcranial Magnetic Stimulation Treatment Over the Medial Prefrontal and Cingulate Cortices of OCD Patients Zangen, Abraham, Ben-Gurion University</p>	<p>When the barrier breaks: Examining bbb dysfunction and behavioral abnormalities in an animal model of diabetes related depression Yoni Loterstein, Bar Ilan University.</p> <p>Genetics and bioinformatics analysis of heavy loaded four branches of a family with prevalent suicidal behavior and mental illness Zalsman Gil, Geha Mental Health Center; Tel Aviv University, Columbia University, NY. Clalit Health Services</p> <p>High hopes for treatment: investigating the effects of the fatty acyl amide, oleoyl serine, and the cb2 receptor agonist, hu-910, in an animal model of depression and anxiety Jenna Gellman, Bar-Ilan University</p> <p>Suicidality calls to a national helpline after a terror attack and war Benatov Joy, University of Haifa, Geha Mental Health Center.</p>	<p>Complexity of the brain's dopamine system: findings and implications Ben Engelhard, Technion</p> <p>Prediction of lithium response in bipolar disorder using patient-derived neurons Shani Stern, University of Haifa</p> <p>A paradigm shift in GPCR recruitment and activity: GPCR Voltage Dependence Controls Neuronal Plasticity and Behavior Moshe Parnas, Tel Aviv University</p> <p>A Speech Neuroprosthesis that Articulates Phonemes for a Patient based on Neuronal Activity Ariel Tankus, Tel Aviv Medical Center, Tel Aviv University</p>
Parallel Sessions			
אולם מסיק	אולם ראשונים	אולם תמר	אולם דובדבן
Session 9	Session 10	Session 11	Session 12
<p>Beyond the Spectrum: Understanding and Managing Co-Occurring Conditions in Autism Moderator: Menashe Idan, Ben-Gurion University of the Negev</p>	<p>Short talks#1 Moderator: Haim Belmaker, Ben Gurion University</p>	<p>Minding the body: Impact of stress on women's physical and mental health Moderators: Dana Lassri, The Hebrew University Liat Helpman, University of Haifa</p>	<p>The Missing Link between Cognitive Deficits and Negative Symptoms in Psychosis: From Animal Models to Aging Trajectories Moderator: Krivoy Amir, Geha Mental Health Center</p>
<p>15:30-17:00</p> <p>Risk of Injury in Children with Autism Spectrum Disorder with or without Attention Deficit/Hyperactivity Disorder Shmueli Dorit, Clalit Health Services</p> <p>Adherence to treatment and parents' perspective about effectiveness of melatonin in children with autism spectrum disorder and sleep disturbances Sadeh Hadar, Soroka University Medical Center</p> <p>Testing the Associations Between Obsessive-Compulsive Symptoms and Sleep Disturbance in Two Youth Cohorts with Autism Spectrum Disorder Peterburg Dar, Bar Ilan University</p> <p>Co-occurrence of Epilepsy and Autism-What Should be the Primary Diagnosis? Sadeh Noy, Ben-Gurion University</p>	<p>Cognitive, Bodily, and Emotional Factors as Markers of Vulnerability and Resilience for Traumatic Stress Symptoms – A Longitudinal Perspective Following October 7th Gilam Gadi, Hebrew University of Jerusalem</p> <p>Emotion Regulation and Wellbeing of Israeli Parents During The "Israel-Hamas" War Keleynikov Mor, University of Haifa</p> <p>Empathy as a Risk Factor for Internalizing Symptoms During War Exposure: A Prospective Study from Toddlerhood to Adolescence Katsoty Dana, The Hebrew University</p> <p>Markers of resilience during war: Emotion, attention, and stress regulation in male and female Israeli soldiers after October 7th, 2023 Cohen Rotem, University of Haifa</p> <p>Attention regulation among sleep-deprived air-force pilots Maoz Inon, University of Haifa</p> <p>Challenging PTSD Primacy as Bio-Behavioral Construct Shalev Arie, Hadassah Medical Center</p> <p>Reducing Self-Stigma Among Survivors of Childhood Trauma: Randomized Controlled Trials of Brief Video Intervention Haim-Nachum, Shilat, Tel-Aviv University & Columbia University</p> <p>Development of Accessible, Neuroplasticity-Inducing Psychedelic Treatments: Pharmacological Approaches Shahar Orr, Hadassah Medical Center, Hebrew University</p> <p>"A Sobering Friendship": The bi-directional relationship between alcohol addiction and prosocial behavior Flumin, Hila, Tel Aviv University</p>	<p>From one pain to another: The association between peritraumatic pain during child maltreatment and later chronic pain Tsur Noga, Tel Aviv University</p> <p>Silent Battles: Reviewing the Impact of War on Endometriosis Patients Wertheimer Aya, Endometriosis Israel</p> <p>Endometriosis-One Illness, Different Women: Latent Profiles of Risk and Resilience Factors and Bio-Psycho-social Well-Being Lassri Dana, The Hebrew University</p> <p>Stress exposure, posttraumatic stress symptoms, and gynecological health: The case of Israeli women after the October 7th attacks Helpman Liat, University of Haifa</p>	<p>Negative symptoms in schizophrenia: dimensions, treatment, and assessment challenges Noham Wolpe, Tel Aviv University, University of Cambridge, UK</p> <p>A mouse model of multi-domain cognitive testing: a novel method for measuring schizophrenia-like cognitive deficits in animal models Inna Gaisler-Salomon, University of Haifa</p> <p>Neurodegenerative diseases among patients with psychotic disorders: prevalence and predictors Sharon Taub, Geha Mental health Center, Tel-Aviv University</p> <p>Disentangling Cognitive Decline from Negative Symptoms in First-Episode Psychosis - New Perspectives from the Navigate Program Laura Sharony, Mazor Mental Health Center</p>
17:00-18:00	Posters over coffee - Exhibition Area		
18:00-18:45	Granting awards to Outstanding mentors & General Assembly of ISBP		
19:30-20:30	Dinner Hotel Restaurant (Pre-registration required)		

Thursday 20.3.2025

Parallel Sessions				
	אולם מסיק	אולם ראשונים	אולם תמר	אולם דובדבן
	Session 13	Session 14	Session 15	Session 16
08:30-10:00	PTSD: Towards a biomarker and mechanistic model of diagnosis and treatment Moderator: Efrati Shai, Shamir MC, Tel Aviv University	Neuroscience-based Nomenclature project Moderator: Zohar Joseph, Sheba MC	Unpacking Loneliness: From Neurobiological Mechanisms to Societal Challenges Moderators: Shamai-Leshem Dana, University of Haifa Shamay-Tsoory Simone, University of Haifa	Short talks#2 Moderator: Gailla Agam, Ben Gurion University
	Hyperbaric Oxygen Therapy for PTSD: Threshold Effects as a Key Factor in Sustained Symptom Improvement in a Biologically-Based Treatment Keren Doenyas-Barak, Shamir Medical Center, Tel Aviv University PTSD as bistable system can explain threshold effect and differential susceptibility Alon Uri, Weizmann Institute of Science A biomarkers-based approach to PTSD diagnosis Keren Doenyas-Barak, Shamir Medical Center, Tel Aviv University Interactions between memory formation under stress and PTSD: fMRI signals as potential PTSD biomarkers Aberg Kristoffer, Weizmann Institute of Science	Neuroscience-based Nomenclature (NbN) – introduction Zohar Joseph, Sheba MC, Tel Aviv University The potential of NbN as teaching tool in study curriculum Minkin-Levy Daniel, The Jerusalem Mental Health Center The Different Dosage Different Pharmacology (DDDP) in NbN, from concept to clinical practice Zemach Sasson, The Jerusalem Mental Health Center and the Hebrew University in Jerusalem NbN in child & adolescent psychiatry Zalsman Gil, Geha Mental Health Center and Tel Aviv University	The effects of ageism on loneliness in older adults: Insights from SHARE Shiovitz-Ezra Sharon, The Hebrew University of Jerusalem Inter-Brain Synchrony and Social Connectedness in Loneliness: Insights into Dyadic Interactions Shamai-Leshem Dana, University of Haifa Long-term effects of acute social isolation on decision making and frontal brain activity in adult male rats Tiwari Rishika, University of Haifa Climate change and the risk of loneliness Ayalon Liat, Bar Ilan University	Inside the Emotional Storm: Conflict and Regulation in ADHD Nadav Tehila, Ben-Gurion University Comprehensive Comparison of Pharmacotherapy and Non-Pharmacological Interventions for ADHD: A Randomized Controlled Trial Irit Schorr Sapir - Tel Aviv University, Schneider Children's Medical Center of Israel The Effects of Stimulant Medications on the Sleepiness Curve of Young Men with Attention-Deficit Hyperactivity Disorder (ADHD) Cohen Ami, Yezreel Valley College Reciprocal Relations Between ADHD and Risky Behavior in Adolescence Natali Goueta, The Hebrew University of Jerusalem The Association between Hyperactivity and Suicidal Behavior and Attempts among Children Referred from Emergency Departments Apter Alan, Schneider Children's Medical Center of Israel, Tel Aviv University, Reichman University Efficacy and safety of accelerated deep TMS for depressed patient with active suicidality Bloemhof-Bris Esther, Lev Hasharon Mental Health Center Exploring Chronotypes and the Cortisol Awakening Response: A Systematic Review of Recent Findings Inpatient's, therapist's and staff's expectations regarding treatment and their effects on placebo response in the psychiatric ward – results from an add-on oxytocin RCT Uri Nitzan, Shalvata Mental Health Center and Tel Aviv University
10:00-10:30	Coffee Break Exhibition Area			
Parallel Sessions				
	אולם מסיק	אולם ראשונים	אולם תמר	אולם דובדבן
	Session 17	Session 18	Session 19	Session 20
10:30-12:00	Basic Science Competition	Anxiety Post October 7th	Adaptive Emotion Regulation Across Clinical and Social Contexts: From Mechanisms to Intervention	Clinical, computational, and scientific innovations in Obsessive-Compulsive Disorder
	Hosted by Oren Tene, Tel Aviv Medical Center	Moderator: Peles Einat, Tel Aviv Medical Center, Tel Aviv University	Moderators: Atheer Massarwe, University of Haifa Noga Cohen, University of Haifa	Moderator: Linkovski, Omer, Bar-Ilan University
		Patients' anxiety levels following the October 7th events and one year later in methadone maintenance treatment Peles Einat, Tel Aviv Medical Center The therapeutic potential of Crataegus pinnatifida for treating depression and anxiety Doron Ravid, The Open University Combating hepatitis C in one psychiatric facility: an integrated approach Delayahu Yael, Abarbanel Mental Health Center, Tel-Aviv University "They let us be with them in their world": the point of view of therapists at 'Izunova' - a community self-medication complex for survivors of the Nova-trance tribe Bonny-Noach Hagit, Ariel University	Translational Process Model of Emotion Regulatory Selection Flexibility Intervention for Post-Traumatic Stress Disorder Sheppes Gal, Tel Aviv University Dialectical Thinking, Cognitive Flexibility and Emotional Dysregulation in Borderline Personality Disorder Bergmann Eyal, Rambam Health Care Campus The Benefits of Acceptance for Coping with War-Related Distress: Evidence from Two Randomized Controlled Trials Weinbach Noam, University of Haifa Extrinsic Emotion Regulation: Exploring Strategies Used by Individuals With High and low Depression Symptoms Massarwe Atheer, University of Haifa	Identifying Electrophysiological Markers to Predict Efficacy of Deep Brain Stimulation in Obsessive-Compulsive Disorder Eitan Renana, Kfar Shaul Mental Health Center Computational Modeling of the Acquisition, Maintenance, and Treatment of Ritualistic Behavior in Humans Ben-Artzi, Ido & Shahar Nitzan, Tel-Aviv University The Impact of Acute Extreme Trauma on Onset and Worsening of Obsessive-Compulsive Disorder Symptoms: Insights from October 7th, 2023 Berebbi Shir, The Hebrew University of Jerusalem, Columbia University, New York Timing is Key: How chronotype and time Shape obsessions and compulsions Sagi Noa & Linkovski Omer, Bar-Ilan University
12:00-13:00	Lunch Hotel Restaurant			

Parallel Sessions				
אולם מסיק	אולם ראשונים	אולם תמר	אולם דובדבן	
Session 21	Session 22	Session 23	Session 24	
Pathophysiological and epidemiological aspects of ADHD Moderator: Weizman Abraham, Tel Aviv University	Advancing Perspectives on Anorexia Nervosa: Innovations in Treatment, Physiology, and Biochemical Insights Moderators: Benaroya-Milstein Noa, Schneider Children's Medical Center of Israel, Tel Aviv University Friedwald Keren, Schneider Children's Medical Center of Israel, Tel Aviv University	Susceptibility to Postpartum Depression: Identifying Women at Risk Moderators: Aisenberg Romano Gabi, Tel Aviv Medical Center, TAU, Reuveni Inbal Tel Aviv Medical Center, HU	Beyond Symptoms: A Biopsychosocial Approach to Pediatric Functional Neurological Disorder Moderator: Silberg Tamar, Bar Ilan University	
13:00-14:30 Electromyography (EMG) based device for evaluating attention deficits Zubedat Salman, University of Haifa The influence of COVID-19 on attention-deficit/hyperactivity disorder diagnosis and treatment rates across age, gender, and socioeconomic status: A20-year national cohort study Shahar Nitzan, Tel Aviv University ADHD And the Inflammatory Pathway: From infections to inflammations Manor Iris, Geha MHC, Tel Aviv University	Waiting List Intervention for Pediatric AN Lavan Orly, Schneider Children's Medical Center of Israel, Tel Aviv University Use of glucagon-like peptide-1 receptor agonists in eating disorder population – a retrospective cohort study Yael D. Lewis, Shalvata Mental Health Center, Tel Aviv University Elevated salivary uric acid levels among adolescents with eating disorders Giesser-Gruber Ruti, Hadassah - Hebrew University Medical Center Physiological Effects of Weight Loss in Patients with Atypical Anorexia Nervosa Versus Bariatric Surgery: A Comparative Retrospective Natural Research Mevorach Tomer, Tel Aviv MC, Tel Aviv University	Theorizing PPD as a disorder of co-regulation Zeevi Lior, The Hebrew University of Jerusalem Preventing Postpartum Depression and Post-Traumatic Stress Disorders: Analysis of Cognitive Biases During Pregnancy to Predict the Development of Psychiatric Disorders Following Delivery Cywiak Vanessa, Technion The Long-Term Course and Prognosis of Postpartum Depression: A Historical Cohort Study Bloch Miki, Ramat Chen Mental Health Center, Tel Aviv University, & Gabi Aisenberg Romano, Tel Aviv Medical Center, Tel Aviv University Of two minds: Neural, meta-cognitive, and affective responding to infant faces and antecedents of caregiving risk and resilience in pregnancy Yatziv Tal, Ben Gurion University, Yale University, New Haven, CT	Unity in diversity: Complex regional pain syndrome and functional neurological disorder in children and adolescents Barak Sharon, Ariel University Joint hypermobility in children and adolescents with functional neurologic disorder (FNSD): Prevalence and association with condition's severity and symptoms Landa, Jana, Sheba MC Understandings Functional Somatic Symptoms Disorder in adolescent girls: The role of body and emotional awareness Havaron Amit, Bar-Ilan University Theory of mind and emotional awareness in children with functional neurological disorder Silberg Tamar, Bar-Ilan University	
Guest Speakers				
אולם מסיק		אולם ראשונים		
Beyond monoamines: introducing an orally administered NMDA antagonist for the treatment of major depressive disorder Dr. Leslie Citrome, New York Medical College in Valhalla, New York, and Northwestern Feinberg School of Medicine in Chicago, Illinois Sponsored by: 		 טכנולוגיות חדשניות בטיפול ושיקום נפשי Alona Barnea, Science & Technology Unit, DDR&D, Ministry of Defence		
15:15-16:15 Posters over coffee - Exhibition Area				
Parallel Sessions				
Session 25	Session 26	Session 27	Session 28	
אולם מסיק	אולם ראשונים	אולם תמר	אולם דובדבן	
Workshop: Applying Artificial Intelligence and Machine Learning in Psychiatry: Opportunities and Challenges Moderators: Inbal Reuveni, Tel Aviv MC Keren Avirame, Tel Aviv MC Prof. Ben -Esti Hadas, Technion Dr. Bar, Kfir, Reichman University Prof. Elyoseph, Zohar, Haifa University	Short talks#3 Moderator: Bernard Lerer, Hadassah Medical Center Objective Quantification of Apathy Using Virtual Reality: Gaze Metrics and Autonomic Nervous System Responses Shlomit Zorani, Sheba Medical Center, TAU Machine Learning for Predicting Metabolic Syndrome in Patients with Mental Illness Hekselman Toledano Idan, Geha Mental Health Center Ecological Sustained Attention Test for Schizophrenia-pilot study Komemi Reut, Hebrew University Non-invasive vagal optogenetics reveal a cortical basis for internal perception Izhaki Omer, Weizmann Institute vSTN/MFB theta activity predicts DBS outcome in OCD Tamir Idit, Rabin MC Differential sex association of hepatic and pancreatic fat with cognition and brain pathology in older adults with Type II Diabetes Ethel Boccara, Sheba MC Maternal prenatal stress induces sex-dependent changes in tRNA fragment families and cholinergic pathways in newborns Vaknine Treidel Shani, The Hebrew University Personalized Nutrient-based Care in Autism Spectrum Disorders: Building a Pipeline for a Clinician Assistant Tool as a safe, low-risk, first-line treatment Kuperman Yael, ANeustart, Ltd A Naturalistic Longitudinal Examination of Clinical Outcomes Following Stellate Ganglion Block for PTSD Patients Grinapol Shulamit, Rambam Health Care Campus & Maale Hacarmel Mental Health Center Age differences in incidental learning of emotional information Meital Friedman-oskar, University of Haifa	Chronic Stress Across the Lifespan: Sex-Dependent Mechanisms Shaping Brain Resilience and Neurodegeneration Moderator: Nitzan Keren, Open University New Horizons in Sex-Specific Brain Protection: Davunetide Clinical Development Artur Galushkin, Tel-Aviv University Region- and Sex-Dependent Neuroprotection by Ultra-Low Dose Δ9-Tetrahydrocannabinol in Alzheimer's Mice, with Distinct Female Amygdalar Effects Bergman-Yemini Noa, Open University of Israel & Hebrew University Long-Term Impacts of Chronic Stress: Insights from Adolescence to Alzheimer's in Male and Female Mice Nitzan Keren, Open University Bidirectional longitudinal associations between parent and child depressive symptoms during the Israel-Hamas war: The role of child gender Gadassi-Polack Reuma, Bar-Ilan University	Evidence-Based Advances in Neurodevelopmental Disorders Moderators: Nitzan Shahar, Tel Aviv University Yehuda Pollak, The Hebrew University of Jerusalem Advancing ADHD Understanding: Epidemiology and AI in Cognitive and Neurological Mechanism Analysis Gili Katabi, Tel-Aviv University, Clalit Health Services Does Grade Matter? Effects of the Corona Closure on Mathematical Knowledge - The Case of Young Children with Mathematical Learning Disabilities Sarit Ashkenazi, The Hebrew University of Jerusalem Having Older TD Siblings is Associated with Better Social Functioning in Autistic Children: What About Having Older Autistic Siblings? Yonat Rum, The Hebrew University of Jerusalem ADHD and Inconsistent Sub-optimal Decision Making Ortal Gabrieli-Seri, The Hebrew University of Jerusalem	
17:45-18:15 Granting awards to: Outstanding Research Outstanding Posters Outstanding Basic Science research Closing Remarks and Farewell				

הכנס השנתי ה- 28 של האיגוד הישראלי לפסיכיאטריה ביולוגית
